

MATERNAL QUALITY PAYMENTS SAVE LIVES

Targeted Funding With Clear Requirements and Measurable Outcomes

Funding for hospital birthing units to ensure a consistent response to the leading causes of maternal disability and death, regardless of whether the facility is in Alpena or Ann Arbor.

To receive funding, each facility must participate in safety improvements

- Michigan Alliance for Innovation on Maternal Health
- Maternal Levels of Care (MLC) Verification program

Risk-appropriate care stratification and statewide collaboration

Efficient use of resources

Critical for rural communities and sustaining local birthing units

MI hospitals leading the nation in verifications

Hospitals Use These Funds To:

Support nursing time dedicated to prenatal care

Enhance tracking of patient health outcomes

Implement best practices proven to reduce severe morbidity

Invest in emergency equipment and simulation training

Percent of Birthing Hospitals in MI

The percentage of birthing hospitals participating has grown each fiscal year, reflecting the power of targeted investments. Currently, 94% are committed in FY26.

Hospitals in your district are counting on quality payments to continue their work in FY27.

Find them here:

Ensuring safer births and measurable improvements in maternal health is not political — it is *life saving*.

Maintain \$10M in FY27 budget.
